EXPERIENCE

LOQOL / Sunday.Pro Inc. | Part-time | Remote

Lead Software Engineer | Oct 2026 - Present
Software Engineer | Aug 2026 - Sep 2026

- Build seller and agent workflows across React/TypeScript, FastAPI and PostgreSQL for a real-estate transaction platform, from stakeholder requests through release verification.
- Develop Charlie AI with OpenAI: deal-aware disclosure guidance, source-linked document context and agent-confirmed actions; expand seller assistance and saved conversations.
- Preserve drafts across an 82-question disclosure interview; map answers to a 133-field TDS catalog, implement MLS routing and clear stale routing after address changes.
- Integrate DocuSeal signing stages, reviewable offer-PDF extraction and send prerequisites. Improve PDF reads with preview caches and signed URLs; support Alembic migrations and Cloud Run releases.

GOSVEA Inc | San Jose, CA | On-site

Product Engineer & Project Technical Lead - USJOPU | Jul 2026 - Present | Part-time
Software Engineer Intern | Jun 2026 | Internship

- Since October 2026, lead project-level technical architecture for USJOPU, an AI-powered learning and project platform connecting business problems to skill paths, classes, staged tasks, AI/mentor feedback and deliverables.
- Built ALLCPR's iOS training app end to end and delivered TestFlight builds. Built FirstCPR.com course-discovery and enrollment flows with mobile UX and SEO improvements.
- Developed location-intelligence tools with external data, historical validation and maps, alongside training-operations assistants and hybrid-retrieval AI research tools.

SELECTED PRODUCT WORK

Founder | Curio | Jun 2026 - Present

- Built and released an AI reading app on the App Store and Google Play with React, TypeScript and Capacitor; built Express/PostgreSQL services for content and reading workflows.
- Implemented AI generation, factual-risk checks, translation, explain/quiz workflows, offline reading, saved content and scenarios; built content-production and publishing automation.

EDUCATION

B.S. Computer Engineering | California State University, East Bay | Expected 2027
A.S. Computer Engineering | Green River College | 2022 - 2024
